Vision

to be an indispensable source of independent analysis, informed debate, and influential ideas to help improve policy and decision making on global and strategic issues

Mission

(1) promoting a better understanding of the contour, content and context of global and strategic development; (2) producing independent and rigorous analysis of critical global, regional and country-specific challenges on advanced development; (3) developing new ideas and options to decision makers and policy specialists in tackling of global and strategic challenges

Area of Interests

(1) regional dynamics & transnational development issues; (2) cosmopolitanism & globalization; (3) nationhood & national interest; (4) international & foreign affairs

Programs & Activities

(1) regular research & mapping; (2) analysis & briefing; (3) simulation & review; (4) consultation & advocacy; (5) negotiation & resolution; (6) articulation & communication; (7) dissemination & publication

Research Groups

(1) globalization & non-military defense; (2) local autonomy & foreign policy; (3) maritime development & defense; (4) terrorism & conflict resolution; (5) ethnic conflict & human security; (6) migrant worker & sustainable development; (7) international business & negotiation

Partnership

we welcome any constructive supports and partnerships to enhance analysis, understanding and policy responses toward our global and strategic challenges

Resource Centre

Cakra Buana Catur Matra, our historic departmental resource centre, as a home base, workshop and an indispensable part of Centre for Strategic and Global Studies

Publications

(1) Global & Strategic, a journal; (2) Cakrawala Kebijakan, a policy brief; (3) CSGS Paper, a collection of unpublished papers; (4) CSGS Publisher, a book publisher

Abstract

High economic development in Brazil increases high demand on electricity consumption. As reaction, Brazilian government builds hydroelectric dam called Belo Monte in Xingu River. The dam will finish in 2015, and it will becomes the third largest hydroelectric dam in the world. Belo Monte will produce 11,233 Mega-watt. In the meantime, there are protests from indigenous people and local NGOs. They argue that the construction damage the environment and give negative effects on society. Further, article describes what the dam's implications are on the environment and on social wellbeing of indigenous people. It also explains NGOs strategy for rising the issue.

Keyword : Belo, Monte, dam, environment, and, social, consequences, indigenous, people,
