Abstract

Indonesia's preparing for social insurance system that govern and operate by "BPJS" (Badan Pelaksana Jaminan Sosial). One of the areas that covered by "BPJS" is Health Insurance Program, which is call as "BPJS Kesehatan". "BPJS Kesehatan" will need an agreement and cooperation with primary healthcare facility such as Doctor's Private Practice, Clinic or "Puskesmas" (Public Health Centre) in legal contract. In Indonesia, clinic is usually run by the private sectors and it's quite different to private practice facility which is run by individual and also "Puskesmas" which is run by the district or local government. Clinic must have its own legal status, pay salary from their own revenue, etc. That is why a clinic as an organization must be well-prepare and well-manage before they put their signature on a contract with "BPJS Kesehatan". At least, there are 7 main aspects that must be prepare by a clinic which are: (1) Legal Status, (2) Human Resources, (3) Facility, (4) Standardization, (5) Marketing, (6) Price, (7) Information System. A clinic shouldn't be worry or feel purturbed to have a deal with "BPJS Kesehatan" when these 7 main aspects are well-prepared, and even more are well-managed.
