Abstract

Upheaval in Syria is an impact of Syria's strategy in facing conflict with Israel. Unrest happening in Syria is not to make a democratic country but to replace legitimate President. US and its allies have succeded to break diplomatic relation between Syria and Turkey. The main point of US and Arab League is to change Syrian regime because it will easily eliminate the military forces of Hizbullah in Lebanon supported by Iran. The failure of US and its allies to purpose human intervention in UN led to Israeli attack to Syrian region. The attack is to assist terrorist opposition to tackle the Syrian Government. A demise of the regime is to reduce an influence of Iranian strategic relations with Syria and to cut off Iranian support to Hizbullah facilitated by Syria because the Iranian nuclear capability is the most threat to Israel.
