AKSES PIHAK NON-PEMERINTAH DALAM SISTEM PENYELESAIAN SENGKETA WTO

Abstrak:

The World Trade Organization (WTO) dispute settlement system is accessible only by Members. In another word, it is G to G dispute settlement system since most of its Members are States. Non-States and non-Members are excluded from the system. Private parties and Non-Governmental Organizations (NGOs) do not possess direct access to it. However, the system opens two small gaps which enable Non-States and Non-Members to participate through what are called as indirect access and amicus curiae brief.
